Happy Howie's Introduces New Lamb Burger Treats!

Detroit, MI - Happy Howie's is excited to announce the latest addition to its unique product line-up! Our new Lamb Burger treats are the same great product — just a new flavor. Manufactured in the U.S.A., each treat is made hormone-free and is slow-cooked to perfection. These treats include no corn, wheat, soy or artificial flavoring and are hand packaged with care for your four-legged friends.

“We are really excited about this treat. Our team member's dogs absolutely love the lamb burgers and I'm confident our customer's dog will too.” said company President David Collado.

The Lamb Burgers will keep your dogs coming “baaaack” for more!
